

Workshop II: Ultrasound techniques in Pediatric Anesthesia Practice

Date: Fri, August 17, 2018, 08.00-16.30 hr.

Venue: Padtayatana Building, Faculty of Medicine, Chulalongkorn University, Bangkok, Thailand

Number of delegates: 48

Course Director: Pannika Vorapaluk, MD.

8.00-8.30	Registration	
8.30-8.40	Opening session/ orientation	
8.40-9.00	Lecture 1: Ultrasound Imaging of the Pediatric Spine	Manoj Kumar Karmakar, MD.
9.00-9.20	Lecture 2: Ultrasonography for Pediatric airway and ventilation	Karen Boretsky, MD.
9.20-9.40	Lecture 3: Common Pediatric Regional Anesthesia	Pannika Vorapaluk, MD.
9.40-10.00	Morning Break	

Live Scan: 3 Stations, 40 min		Cadaver Scan: 3 Stations, 45 min	
Group 1-3		Group 4-6	
10.00-10.40	Gastric content and vascular access	10.00-10.15	Preparation
10.40-11.20	Common Pediatric Regional Anesthesia: Upper extremities	10.15-11.00	Lung scan
11.20-12.00	Common Pediatric Regional Anesthesia: Lower extremities	11.00-11.45	Common Pediatric Regional Anesthesia: Trunk block (TAP, QL, Ilioinguinal nerve block)
12.00-13.00	Lunch & Exhibition	11.45-12.30	Ultrasound Imaging of Pediatric Spine
	Cadaver 3 Stations, 45 min	12.30-13.30	Lunch & Exhibition
13.00-13.10	Dress		Live Scan 3 Stations, 40 min
13.10-13.55	Lung scan	13.30-14.10	Gastric content and vascular access
13.55-14.35	Common Pediatric Regional Anesthesia: Trunk block (TAP, QL, Ilioinguinal nerve block)	14.10-14.50	Common Pediatric Regional Anesthesia: Upper extremities
14.35-15.20	Ultrasound Imaging of Pediatric Spine	14.50-15.30	Common Pediatric Regional Anesthesia: Lower extremities
15.20-16.00	Afternoon Break	15.30-16.00	Afternoon Break
16.00-16.30	Wrap up
